

## SANKARA NETHRALAYA OFFERS

Annual Complimentary Courtesy Master Eye Check-up

To those living abroad, it is always a matter of priority that their loved ones get the best treatment when they need and get that treatment close to home. Sankara Nethralaya has introduced the “Annual Complimentary Courtesy Master Eye Check-up” aimed at Indians abroad, **who are concerned about the visual health of their near and dear relatives/friends living in or visiting India. These check ups are very useful in ensuring healthy eye care.**

Annual Complimentary Courtesy Master Eye Check-up (ACCMEC) comes as a great convenience for Indians in the USA, whose parents, in-laws and other near and dear ones are living in or visiting India. **A person living in the USA can pay US \$ 500 and nominate one individual. This nominee will be eligible to undergo a comprehensive eye examination each and every year at Sankara Nethralaya.**

Once a donor sends in the name/s of the nominee under the above packages, the Patient Relation Officer at Sankara Nethralaya will get in touch with the nominee(s) to ascertain their convenience for a date for consultation, and fix an appointment for the consultation. **Sankara Nethralaya will provide courtesy transport with escort for those in and around Chennai (within 30 kms).** Nominees can also be parents, in-laws, and relatives living in the USA who visit India on a vacation and would like to undergo comprehensive eye examination at Sankara Nethralaya.

**Or a person in the USA can pay USD 100 and nominate two individuals in India who will receive a comprehensive eye examination for that year only. The process is same as the one for perpetual check up outlined earlier.**

Sankara Nethralaya is a one-stop referral ophthalmic institution that provides quality eye Care, comparable with the best in the world at Indian costs. It is the first eye hospital in Asia to receive the ISO 9001 certification for quality assurance. It has been serving the Nation for the last 26 years in areas of Eye Care, Research, Training and Community Ophthalmology. Rated as India’s Best Eye Hospital by Outlook-Cfore survey in July 2002 and as the 'Best Hospital in Ophthalmology', consecutively for years 2010 and 2011 by the ICICI Lombard-CNBC- TV-18 survey and The Week/Hansa Research, the most prestigious rating initiatives for healthcare providers, after an exhaustive national survey. Sankara Nethralaya has numerous firsts to its name – the first Argon laser, the first genetics and molecular biology laboratory, the first Yag laser for cataract and Glaucoma, first ultrasound biomicroscope, the first GDx Nerve Fiber Analyzer, the first Automated DNA sequencer and many more.

**For more information on ACCMEC or to avail the service, email to:**

omtrustusa@yahoo.com with a copy to information@snmail.org with your information and the details of the nominees.

**Ms. Akila Ganesan,**  
General Manager,  
Sankara Nethralaya
